BABY BOTTLE BOOMERANG
Fact Sheet

- Who:** The Pregnancy Resource Center, in operation since 1984, serves the Louisville community. Our mission is to provide education and assistance to those faced with untimely pregnancies.
- What:** The Baby Bottle Boomerang is an opportunity for your school, church, group, or club to give the gift of life to unborn children by supporting the work of the Pregnancy Resource Center.
- When:** You choose the date, contact us, then at a mutually convenient time, baby bottles will be supplied to you for distribution. You will have a two-three week period to disperse and then collect the filled bottles.
- Where:** Bottles are sent home with those willing to participate. There, they can serve as reminders of the important work we, as Christians, are asked to support. Hopefully, they can also become a learning opportunity for family members.
- How:** In a nutshell:
Bottles, ready for distribution, will be delivered to you.
You, in turn, make the bottles available to members of your church, school, group, or club.
Those choosing to take a bottle will have one to two weeks to fill it with a check, currency, or coins. (You determine the date the bottles are due to be returned).
When the bottles are returned to you, we will pick them up.

Questions?

Call Teresa Watson, Director of the Pregnancy Resource Center at 589-0370.
